Welcome

to our American Science & Surplus catalog. Here you will find a unique mix of industrial, military and educational items, with an emphasis on science and education. We supply a wide range of unusual and hard-to-find items (some say bizarre stuff) to the hobbyist, tinkerer, artist, experimenter, home educator, do-it-yourselfer, and bargain hunter. Our items are great gifts, inexpensive supplies, and an endless reason for a giggle or a "Gee whiz!" We try to be scrupulously honest in presenting whatever we know about what we have, and always take it back, no questions asked, if the customer isn't satisfied with it. Please remember that we offer many more items than will fit on these pages. You can both peruse and purchase every item we have at our website: www.sciplus.com. Thank you for taking the time to browse our catalog. We appreciate your business.

Frequently Asked Questions

What is surplus?

We buy closeouts, inventory overruns, mis-manufactures, and items whose time has not come. We can usually acquire these items on a one-time-only basis. When a surplus item is gone, it is gone. So if you see something you love, best get it now since we may not have it tomorrow. Our website is frequently updated with our inventory. If you see an item in our catalog, but cannot find it online, it means we have sold out of that item. If our stock of the item you have ordered is exhausted we will refund that portion of your remittance. When we can't find surplus, we may carry regular merchandise which we think those interested in learning and tinkering will find appealing, but only if we feel it is good quality at a fair price.

Can I return items?

Yes. We accept all returns without question and will either refund your purchase price or send you a replacement, as you chose. Returns must be made within 30 days of purchase. For complete details, please check the order form bound in the center of this catalog.

What forms of payment do you accept?

We accept Visa, MasterCard, Discover, checks and money orders. We are sorry to report that we cannot accept CODs, cash, stamps or gold. **If paying by check, please be aware that you are authorizing American Science & Surplus to use the information on your check to make a one-time electronic debit to your checking account. This electronic debit will be for the amount indicated on your check. If you do not have sufficient funds in your account, a returned check fee may be debited from your account. If you have any questions, or choose not to have your check converted into an electronic item, please contact American Science & Surplus at (888) 724-7587.**

Do you have a minimum order requirement?

We regret that the costs of doing business preclude us from processing orders of less than \$10.00 merchandise value (exclusive of shipping and handling). We will return orders of less than \$10.00 merchandise value.

Additional information can be found on the order form bound in the middle of this catalog.

You Say You Wand Bubbles?

If Lawrence Welk had had this, he's still be making Champagne music. Unfortunately he's gone to that great bubble factory in the sky. This contraption looks like a wizard's wand or a whimsical cop's night stick. Measures 14" long and is full of bubbly stuff. Unscrew the handle, pull out the wand and wave it to create giant bubbles. Refill it with soap and water and it'll last longer than the Lennon sisters.

42226 Bubble Baton \$2.95/each
Barb's Favorite! \$1.75/each

I'd Like To Buy The Carp A Drink

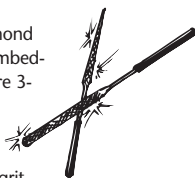

On the theory that muskies also like a beer on a hot day, Miller and Leinenkugel's bring you these beer-can replica bobbers. Measure approx 2" tall x 1" dia in plastic with 2-1/2" spring-spikes to attach your line to. You can drink a Bass while you fish but you can't eat a bass until you catch one. These bobbers will help.

Carl's Favorite! \$2.50/pkg(2)

Solar Rope!

Those long boring nights spent recharging your rope lights are finally at an end. This 16-1/2 foot rope light is 3/8" dia with (50) white LEDs inside. Mount the 2" x 1-5/8" solar cell in the yard or on the deck, plug the rope in and (8) hours of sunlight will give you up to 12 hours of glowing rope when the sun goes down. Includes the rechargeable NimMH battery, ground stake and hardware. Has standard on/off or auto modes. Water & weather resistant and rated to last more than 100K hours.

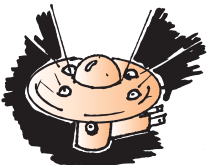

94709 Solar Rope Lights \$14.95/each

The Night Of The Flying Saucer

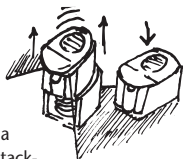

This UFO night light is your traditional flying saucer shape but a mere 3-1/8" dia (it's flown by very small aliens) with a large central dome and (4) smaller ones, all of which cycle red, green, blue and amber. A large bottom dome stays lighted in white to serve as an actual night light. The manufacturer felt compelled to say "THIS IS NOT A TOY" so we're passing that along.

42701 Saucer Night Light \$3.75/each

Ittyest Bittiest Light Of Them All

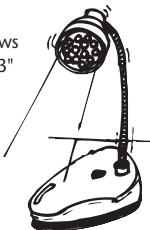

This little light of yours will illuminate the dark corners of your life, and stick around for the next time you visit that corner. The Pop-Up MicroLite is a 3/4" cube with a self-adhesive pad on the bottom. Slide the top and it pops up and lights up with a bright white LED. Think toolbox, fusebox, tacklebox, anybox, or clipboard, sock drawer, remote, purse, wherever. Includes button-cell batteries.

41958 Itty Bitty Light \$2.95/each

Tiny Table Lamp

On tiny tables or the desktop, this lamp throws a nice puddle of light for its size. The 4-1/4" x 3" x 1-1/2" tall base supports an 8" long gooseneck with (14) bright white LEDs at the top. Silver-plastic and chrome, with a pushbutton switch on the base, it comes with (3) "AAA" batteries. We're putting ours on top of the dresser so maybe we'll finally be able to tell what color socks we're taking out of the top drawer, but it would make a nice little reading or camping lamp. Should give 15 hours of light with fresh batteries.

92977 LED Table Lamp \$8.95/each

Vaguely War Of The Worlds Lamps

This pair of 12-LED lamps look a lot like the alien weapons in the War of the Worlds, except these just light up your desk instead of melting you. Our each is a pair in silver plastic with various-colored highlights. The arms function as handles so they're also work lights. Powered by a USB plug, included, or (3) "AA" batteries, not included. (But we sell them!) Lamps stand 7-1/2" tall with a 2-1/2" x 1" head that tilts in a 135-degree arc.

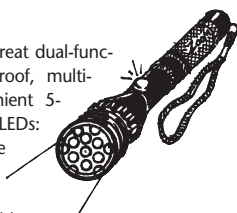

94807 Alienish Lamps \$10.95/each

92293 "AA" Alk Batteries \$1.95/pkg(4)

UV, LED, GITD

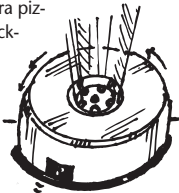

Lotta letters, because this is a great dual-function flashlight! Handy, waterproof, multi-functional! Measures a convenient 5-1/4" long, with a total of (16) LEDs: Turn on (10) super bright white or (6) ultraviolet (The best UV LEDs we've ever had!) with the shielded, glow-in-the-dark pushbutton switch. Black anodized aluminum body. Runs on (3) "AAA" batteries that are included. Includes a wrist strap and a black nylon case.

93996 UV-LED Light \$8.50/each

A Multifunctional Adjustable?

This rotating LED pedestal puts a little extra pizzazz in awards, displays, tchotchkes or cock-tails. The package calls it the "ISO9001 Multifunctional Adjustable," and a "Crystal Rotary Slide Show" which we call a language problem, but it's still pretty slick. This black 4-1/2" dia x 1-3/4" tall display pedestal with a mirrored top has oscillating green, red, yellow and blue LEDs at the center. The whole shebang will turn at 1 rpm or sit still if you can't stand the excitement. Powered by (3) "AA" batteries that you buy, or by the included wall adapter.

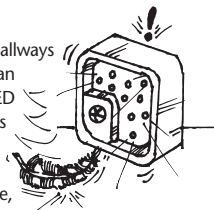

94433 LED Pedestal \$7.95/each

92293 "AA" Alkaline Batteries \$1.95/pkg(4)

Don't Move!

Or the light will come on! Now your hallways at home can be just like a European hotel with our motion-sensitive LED light. No plug necessary, since it runs on (3) "AA" batteries (not included because we can't do everything, after all). Mounts via a 1/4" keyed screw hole, but double-sided tape would also work. Measures 2-3/8" sq x 1-1/2" thick and has (10) white LEDs in a white plastic housing. Lights up with motion approx 4 feet away.

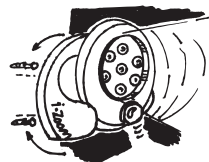

93880 Motion Light \$9.95/each

92293 "AA" Alkaline Batteries \$1.95/pkg(4)

Don't Move!

Our wireless motion-sensing light has (7) bright white LEDs in a 3-1/8" dia mirrored face that throws light approx 15 feet. This makes it great for small rooms, large closets or gigantic doll houses. Housing is 4-3/4" x 4" x 2-1/8" in white plastic on a pivoting turntable that rotates 360 degrees. Detects motion within 10 feet, stays lit for approx 60 seconds, but also has an on-off switch. Battery housing (you add a quartet of "AA"s) is gasketed for water resistance. Includes mounting hardware. Made by i-Zoom®.

94796 Motion Light \$9.95/each

92293 "AA" Alk Batteries \$1.95/pkg(4)

Pocket Work Light

Small enough to slip into a toolbox or pocket, this little oval work light hangs on its 1" ID folding hook or sticks up via a strong 3/4" dia magnet on the back. Measures 3-3/4" x 2-1/2" oval x 1-3/8" thick, and lights with (24) white LEDs on the face or (3) more on the bottom. Runs on (3) "AAA" batteries, included. Nice as a traveling closet/night/flashlight, too.

94179 Little Work Light \$3.95/each

Sometimes Violets Is The Answer

Our common red or green pointer too blasé for you? Make your point violetly with one of these rare violet laser pointers. Its non-slip black rubberized case with silver accents is 6-1/8" long x 7/16" dia, with a momentary switch and a pocket clip. Includes the (2) "AAA" batteries you'll need. You're welcome.

94657 Violet Laser Pointer \$14.95/each

Tootin' Our Laser

We don't like to brag, but it's tough not to in a case like this. This is a wonderful pen-shaped laser pointer, 5-1/4" long, flat black or silver with gold pocket clip and head. It throws a red point a loong way (we've thrown it two city blocks, and it would've gone farther, but buildings got in the way). And what are we so proud of? We've seen a very similar item—not identical, mind you, but essentially the same—in one of those glossy, toys-for-grown-men catalogs. Their price? \$20! We're proud not to be profit-mongers; buy it here and you can take pride in your smart shopping habits. Batteries included.

91071 Red Laser Pointer \$9.95/each

NEW!

Because Disco Never Died

It takes two to disco. Back by popular demand, this 8" dia version of the classic disco ball is festooned with tiny mirrors to flash sparkly fun around any room, and it's got a split-ring for hanging. If you add our 2" x 2" x 2-3/4" spinning motor for hanging displays (in this case, a disco ball...you catch on fast), you've got a home nightclub. Now all you need to do is hire a doorman. Motor runs on the included wall adapter and 16-foot cord. Turns approx 6 rpm from a 1/2" long x 1/4" dia shaft with a split ring. Long a staple in your more festive venues, here at the home office Carl uses our disco ball to bring a little more glamour to the warehouse.

94897 8" Mirrored Ball \$15.95/each

94898 Rotating Display Motor \$17.95/each

Bargain Light Show

Bring back the '70s for nine bucks. Screw this red-green-blue LED prismatic, rotating bulb into any standard medium-base light socket and your room turns into disco heaven. Bulb will stand about 5" above or below the socket. Draws approx 6W. CJ recommends any Donna Summer album for use with it.

94896 Disco Show Bulb \$8.95/each

A Little Lightning

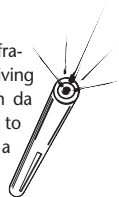

Despite parental advice, here's a good reason to sit in a dark room and think small. This Plasma Storm isn't as large as a standard plasma ball, so not only is it much more affordable - the effect is concentrated and startling. When turned on, the 3" dia clear globe (think baseball size) fills with blue stems that flare to pink, looking like dozens of electric flowers searching for a way out. Very Cool. Comes on a black-plastic base with an on/off switch, and has a 6-ft power cord with transformer.

92222 Plasma Storm \$15.95/each

Green Laser Par Excellence!

Da Mare could use this to point out cracks in the infrastructure at Wrigley Field. You, having a forgiving nature, will resist the urge to point out cracks in da mayor's infrastructure. You will, of course, use it to point out chimney cracks to the tuck-pointer, a cracked limb to the tree-trimmer, and the crack in your profit picture during a slide presentation. You can do all that and much, much more with the bright light from this 5mW green laser pointer. It's an unbelievable tool. If you need a laser pointer that seems to go on forever and is so strong that you can actually see the beam in the dark, it will be the best low-cost investment you ever made. Or the coolest high-end toy. The 532nm Class IIIa light is 5-5/8" long x 1/2" dia, with (2) "AAA" batteries (included), a momentary-on switch, pocket clip, and case. An absolute necessity for construction, surveying, warehousing, inspection and other large sites. And for playing in the dark.

92512 5mW Green Laser Pointer \$14.95/each

Geodesic Light Fixture

Our LED lighting fixture has more patterns than our pattern-counting department could count. It oscillates through the primary colors, plus white with endless prismatic and gobo patterns. Insert a USB or SD card with your music on it and it'll play it. That's a personal sound and light show, friends. Sadly, no instructions, but you love a challenge, don't you? Measures 7-1/4" dia x 6" deep with a geodesic pattern surface and a remote control. Keyed mounting wings on each side. Plugs into a standard wall outlet.

94842 Magic Ball Light Show \$39.95/each

The Electric Butterflies

A failed folk-rock group from the Summer of Love? No, a trio of pretty lepidoptera oscillating through many colors via the magic of fiber optics. They have a 3" wingspread and sit on a 1-1/2" dia base that holds the (3) included and replaceable button-cell batteries inside. You'll get (3), at least (2) different, along with self-adhesive tape to stick them somewhere. We like them as party lights, but they'd also be great on a hat.

94668 Flashing Butterflies \$5.95/pkg(3)

The Ultra (Violet) Pocket Light

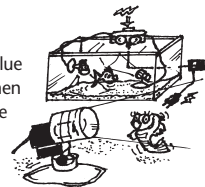

Our pocket-sized mini-flashlight has (8) ultra-violet LEDs and myriad uses, from checking for counterfeit U.S. currency to working the door at hip downtown clubs, spotting radiator and transmission fluid leaks, mineral identification, and (yes, it's true) finding scorpions in the dark. Measures 3-7/8" long x 1-1/8" hexagon, and comes with (3) "AAA" batteries for power and a canvas carrying case with a belt loop. You supply the scorpions.

93507 Mini-UV Flashlight \$10.95/each

Light Up Your Guppy

It'll be like they're swimming in the blue grotto on Capri (every fish's dream) when you add this Miraclebeam® Hi-Lite Underwater Aquarium Lighting System to your home fish tank. You get (1) blue and (1) green waterproof LED, (4) suction cups to mount them, a wall plug adapter and a 5-way distribution box, which will let you add more in the future. LEDs have 5-foot power cords. UL.

42708 Aquarium Lights \$7.95/each

Camo Tank Top

Beautify your unsightly propane tank (and fool the moose who keep trying to mate with it) with this 10-foot long x 37" dia nylon camouflage tank cover. Made for 500-gallon tanks, it would also be useful covering a canoe, small boat or slender hippopotamus. Includes zip-ties to secure it.

42144 Camo Tank Cover **\$14.95/each**
New Lower Price! **\$9.50/each**

Duckhead Autospritzer

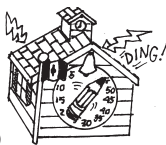

Just pull the trigger on the top of this battery operated 36 oz spray bottle--the part that looks like a wood duck's head--and it spritzes the contents (window cleaner, water, etc.) in a mist all by its little duckself as long as you keep the trigger depressed. Good for people with arthritis or non-arthritis who are just lazy. In green and white plastic, it measures approx a foot tall x 4-1/4" x 2-1/4". Flip up the green stripe on top of the duck's head to put in the (2) "AA" batteries that you have to buy.

42458 Battery Operated Spritzer **\$2.95/each**
92293 "AA" Alk Batteries **\$1.95/pkg(4)**

Measures Canadian Time

This mega-cute mechanical timer is a 3-1/2" tall Canadian one-room schoolhouse that sounds a bell when the time is up. It has a magnet on the back but also stands up by itself. Runs for up to 60 minutes, which luckily is the same in Canada as it is right here in the US of A, so no conversion is necessary. If you don't like Canadians, just break off the little maple-leaf flag.

42510 Schoolhouse Timer **\$4.50/each**

Solar Butterfly

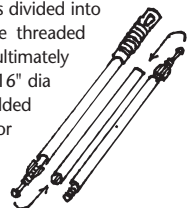

All butterflies are solar, we suppose, but this one needs more concentrated power than the cocoon kind. We'll pick either a monarch or yellow swallowtail for you. Spookily real-looking and flying to a fare-thee-well on a delicate 10" inch wire that's mounted on the offset cam of a small DC motor with a butterfly-shaped solar panel. Snug the device, on a 13" dark-green plastic support column with its easy-to-insert stake, close to a plant in the garden or a flowerpot, and it will blend right in. The butterfly won't get tired and won't leave until you move it. Add a "AA" battery for cloudy days or a housebound or night-flying butterfly. So much easier than trying to train nature.

94330 Solar Butterfly **\$11.95/each**
92293 "AA" Alkaline Batteries **\$1.95/pkg(4)**

Broom Est Divisa In Partes Tres

Like all Gaul, this steel broom handle is divided into three parts. The 19" long parts have threaded clutches to connect to one another, ultimately measuring 49-1/2" long x approx 13/16" dia when assembled. In white with a molded plastic handle on the end, it's perfect for people without a broom closet, painting contractors, traveling witches or fussy budget campers. Standard thread so all you add is the head.

42221 Three-Piece Handle **\$4.50/each**

Jolly Caution Tape

From Martha Stewart (go figure) comes this black crime-scene-ish caution tape festooned with skulls & cross-bones and CAUTION! in transparency on black. You get a 100-foot x 2-1/2" wide roll. Martha was thinking Halloween, but we like this for shipwrecks and generally menacing situations. Also, impromptu headbands.

42679 Black Caution Tape **\$4.95/each**

Top Seller!

Scrunch A Buncha Cans

Reduce recycling space with this wall-mount steel can crusher. Very satisfying to use: pull the 12-1/4" long padded handle and it easily smooshes cans up to 5-3/8" tall (standard aluminum beverage size) into squat little accordion-pleated stumps. The black and gray steel unit mounts with the included screws and has a handy bottle opener under its the front lip, because you don't.

23024 Can Crusher **\$8.75/each**

Clever Idea #763

This idea is for the birds. Literally. A green plastic perch, dish, and dispenser that you can screw onto an inverted plastic pop bottle to convert it into a bird feeder. Obviously, the bottle should have been emptied of pop and filled with seed. One of those "100 things to do with old coat hangers" ideas that really works!! Complete with instructions and bail to hang the completed feeder.

89308 Wild Bird Feeder **\$2.95/each**

Insecticidal Solar Accent Light

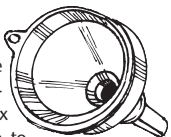

Looks like a mini version of an old street lamp, but it's solar powered with rechargeable batteries, and it makes a lovely accent light in the garden. It's also a killing machine, using that solar power to zap the bugs that are heading for your neck. Measures 6" across x 8" tall (14" tall mounted) in black plastic and can be hung or mounted on the included 3-piece stake.

94761 Bug Zapper Lamp **\$9.95/each**

A Funnel As Big As A Hat

If the Tin Man had been plastic, this would have been his lid, and he'd have been rust-free. Our giant red-plastic funnel is 9-3/4" dia with a 3-1/8" long x 15/16" ID neck. Just under 10" tall top to bottom. Hang it by the little tab with a hole on the top edge. Buy (3), get a tennis ball, and run the biggest shell game in town.

93937 Giant Funnel **\$3.95/each**

Hello Dali

Direct from Salvador Dali's Persistence of Memory, here's your very own melting clock, made to drip off the edge of a bookshelf or mantel. Measures 6-3/4" x 4-3/4" x 5-1/4" in white, black and chrome-ish plastic (because it melts easier). You add (1) "AA" battery.

I'm Gonna Buy These. Yes, Siam

Yul love these. When these 3-ounce teacups were made for Northwest Airlines, Thailand was still called Siam, which we know because that's where they were made and it says so right on the bottom. Measure 3-3/8" dia x 1-13/16" tall with dark and light blue extremely skinny stripes just below the rim. Don't drink tea? Think double espresso.

42329 Airline Teacups \$4.95/pkg(4)

Chip Grippers

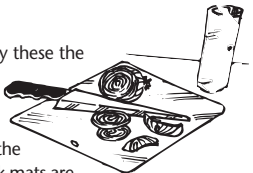

Plastic spring-loaded potato chip bag closure clips. You get two dozen (a pair of 12-packs) which is probably more than you have open bags of potato chips at one time, we figure. But these are Universal Chip Clips, which means you can use them to close bags of nacho chips, pita chips, corn chips, bagel chips, BBQ chips, ruffled chips, microchips and paint chips. Or up-to-1/2" stacks of paper. Each clip is 2-1/2" long x 13/16" wide. Most are a soft orchid hue, but some special people might get different colors.

41108 Chip Bag Clips \$3.95/pkg(2)

Flat Mats

Let's cut to the chase here -- buy these the first time you read this, or they're going to be gone! There aren't that many of these flexible chopping mats, and the versatile 15" x 12" x 0.024" thick mats are not only ideal for small kitchens where every inch counts, they're great for any kitchen, and for cookouts, camping and picnics. Our each is a set of (2) of the translucent Euro-look mats that protect countertops from sharp knives and fresh-from-the-oven cookies, and protect food from outdoor surfaces. They can be lifted and slightly folded to funnel chopped food neatly into a pot. They're dishwasher safe, and roll up for portage or storage.

35253 Chopping Mats \$1.95/each

Four Funnels

Four fine funnels, a fantastic fare. Sturdy plastic, the biggest is 4-1/8" dia at the mouth, with a 1/2" dia spout; the smallest has a 1-7/8" dia mouth, 1/4" spout. The other (2) are in between. Frankly, it's freaky fun flowing fluids from four funnels!

An Atomic Clock, Eh?

Recognize this digital atomic clock? You must be hanging around hospitals and other government institutions up in Canada, because this came from their actual supplier. Accurate to a fault and visible across a very large room, this giant digital clock refreshes and resets the exact time each night and is 16-1/2" wide x 10-1/2" tall x just 1-3/4" thick, with a clean, brushed-aluminum-look plastic frame. Displays time (digital LCD h/m/s, with h/m being 4" tall), time zone (select any of 6 North American zones), indoor temperature, day and date. The E-Library

We're thinking you'd need about 375 feet of bookshelves to store the books in this digital library, or 500 briefcases to carry them with you on vacation. Instead, this 1" x 1-1/2" x 3/8" thick plug-in drive, cleverly shaped like a teensy book, has the text of 3,000 classics for less than half a cent each, including Huckleberry Finn, Black Beauty, Great Expectations, all of Sherlock Holmes, a bunch of Charles Dickens and thousands of others in standard E-book format. All you need is a USB port and Windows 7, XP, SP2, or Vista (sorry, no Mac version). And be careful, it's not edit-protected, so hit the wrong key in A Tale of Two Cities and you could erase the French Revolution.

SURPRISE!

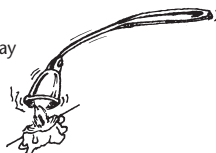

Mystery boxes of stuff like what you see in the catalog. Maybe we had a little left but not enough to continue the listing. Maybe we only got a few as part of an odd lot. Maybe we lost some, and just found them in the warehouse. You will get items which originally listed for at least \$25.00 total in our catalog (or would have, if we had enough). You pick. The "electro-mechanical" box has things like motors, switches and components that are useful parts but want to be worked into something bigger. The "consumer" box has more ready-to-go type items, and things that don't have as technical a flavor, like bottles, toys, books, and giant rubber bands. The fun is in the mystery and surprise. Perfect if you don't know what to give Aunt Maude and Uncle Ned, or if you can't decide how to bring your order up to the minimum. Every couple of months the contents will keep changing, so even if you have gotten a box before, feel free to order again!!

Yes, this does indeed suck, but not a lot. It's genuine surplus, the vacuum part of a vacuum seal-a-bag unit. Measures 7.5" long x approx 2" dia with a 6-foot cord. Drinking Bird

You're buying the drinks and this wacky, yet debonair, bird with a top hat and plastic base (7" tall OA) can't get his fill of water. Get him started, and he dips his beak into your glass repeatedly. How? Fluid inside his glass body condenses from the evaporative cooling of the water off the bird's beak, making it top heavy and dunking it back into the water. The condensate rejoins the liquid pool in the bird's bulb, and he tips up again. Process continues indefinitely. It works, but it's not any more than moderately well made, and not any more than moderately priced. **WARNING!** The fluid and dye inside the bird can permanently stain, and the bird's glass body can easily be broken. Children are fascinated by the bobbing bird, and the educational possibilities are great. But they should watch him, not fondle him!! Manufacturer warning states this item is not intended for children 8 and under. **WARNING:** CHOKING HAZARD-Small Parts. Not for children under 3 yrs.

Swingin' Desk Toy

Newtonian demonstrator for science teachers. Mindless play for the rest of us. These are shiny, nicely balanced, high-performance examples of the classic Newton's Cradle - a ball on one end of a row of (5) suspended, barely touching balls swings into the others, and the ball at the opposite end reacts to the collision. The 11/16" dia balls in the small version (all-metal frame 6-1/2" high x 4" x 4-1/4") will collide about 30 times. The 7/8" dia balls in the large version (metal frame 5-1/4" high x 4" x 6", with a wooden base) will collide about 100 times. Awesome. Even more awesome that we paid someone to count the bounces just for you! (Unpacking note: Less awesome if you just yank it out by the suspension lines and pull a couple of balls loose. Be gentle.) **WARNING:** CHOKING HAZARD-This toy contains a small ball. Not for children under 3 yrs.

Let There Be Light

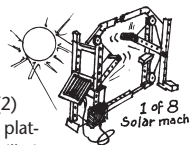

Snap Circuits® (by Elenco®) does it again, this time with light, although the (182) projects also feature the interplay of light with sound. Projects include color organs, strobes, IR detection, LEDs, color spectrums, motor control, photo resistors and transistors. You can even plug your audio player into some projects. CJ, our Senior Light & Sound Boffin, called it "an enchanting rainbow of scientific theory wed to practice, with fun in the bargain," but he talks like that sometimes. For ages 8 and way up, it has over (55) parts and yes, they will play well with other Snap Circuit® components. **⚠WARNING: CHOKING HAZARD-Small Parts.** Not for children under 3 yrs.

Cooler Than Monkeys

Triops: way cooler, bigger and more active than sea monkeys. They're dinosaur shrimp, leftovers from some 200 million years ago. Don't eat them; just grow them and enjoy this bizarre & ancient display of nature! In the kit you get a kidney-shaped tank 2-3/8" tall x 8-1/2" x 5-3/4", a very informative instruction booklet, and a packet full of triops eggs and food. In the starter pack/refill pack you get triops eggs, food, conditioner and directions. Add the eggs to water and watch them go; they'll hatch in a day and reach 1" to 2" or more in a few weeks. Really easy to do, and really cool too. **⚠WARNING: CHOKING HAZARD-Small Parts.** Not for children under 3 yrs.

Lampless Lava

lear acrylic sealed tube, 3-1/8" dia x 8" tall, divided into two equal chambers. The dividing wall has a hole in the center, and the tube has a quantity of viscous violet goo (glycerin?) in it that fills one chamber about 3/4 full. Stand the tube on end with the full chamber up, and over a 10 minute period the goo will ooze from the upper to the lower chamber, blowing bubbles and dribbling droplets in the process, all in slow motion. The action is somewhat reminiscent of a lava lamp, without the heat and light, and with a mixed air and goo chamber that yields much more interesting patterns. Mesmerizing, disgusting, fascinating, soothing. It comes in a variety of colors from which we will choose yours.

Pow! Pow! Pow!

It's 1953 all over again! Now you can buy your favorite childhood toy for your grandkids! We have the Original Burp Gun® that rapid-fires small ping-pong-type balls the length of our office as fast as we can pump the barrel (no batteries needed). All right, we remember the grip of the original as plain old brown plastic, and this one is bright red – but kids are used to a lot more stimulation these days! The Original Burp Gun®, which comes with (15) balls, is 30" long when fully extended. The Original Burp Pistol®, which comes with (7) balls, is 12" at its smallest and extends to 17". Ga-Boooooiiiiinnngggg!

The manufacturer calls it the Thunder Tube™. We call it indispensable for the amateur Foley operator. It's a 7" long x 2-1/2" dia PVC tube with a resonant head at one end attached to a 17" long x 3/16" dia extension spring. Shake it, scrape it, wiggle it, use your palm to muffle it and you generate creaks, deep warbles, rumbles, weird heterodyne-ish gong effects, wa-wa's, rude noises, and, yes, realistic thunder. A perfect musical companion to your cuica and rain stick--and good, clean fun around the house. Don't make a sound-track without it.

Original Slinky®

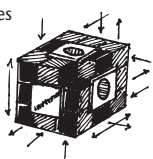

Does anyone need to be told what a Slinky(tm) toy is?? Okay, it is a very slack spring, 2-7/8" dia x 2-1/2" long, compressed. It will stretch out to about 5 or 6 feet long without deforming. That's the boring part. The interesting part is that it "follows" itself. Slosh it from hand to hand. Put in on the top step of stairs, flip the end down a step, and watch it walk down stairs, or down an incline. Believe us, no childhood (or adulthood) is complete without an original stainless steel Slinky(tm). It was hard for us to find it, but we are glad we did. Polished glass equilateral prisms. Equilateral because each edge of the end is the same length, 32mm. Thus, as all you geometry students know, each of the angles is also the same, 60 degrees. These are school grade and are fine for decorative and demonstration. They do a nice job of refracting light to produce a nice rainbow-like spectrum, but are definitely not up to instrumentation standards. The missing dimension, length, is shown below.

From The Golden Past

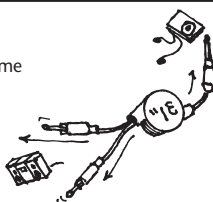

This Motorola Golden Voice speaker is vintage, we're just not sure what vintage. Based on its shape, we think it's from a car radio. What we know for sure is that it has a 4-Ohm impedance, measures 4" x 10" x 2" deep and is mounted on particle board that measures 4-3/8" x 11-1/4" with mounting tabs on the long ends. Voice coil is 1-1/8" and it has a pair of quick-disconnect terminals. No wattage rating but our vintage speaker expert (old, but still working) says it'll be OK for up to 10W or so. Auditory Breakthrough

Among the staggering number of unmet needs here in the land of the free, the combination audio speaker/carabiner has always ranked near the top. Until now. This triangular white plastic speaker measures 3-1/2" x 1-1/4" with a carabinerish side so you can hook it onto a rope or rod or anything else handy--but you can't use it to actually climb. It's plastic, for crying out loud. A standard 1/8" stereo plug secures out of the way. You add a pair of "AAA" batteries. Not the highest fidelity in the world, but it'll work for the beach or mountaintop.

Pillow Talk

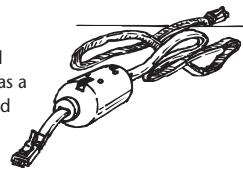

You get a pair of 1-1/4" dia, 36-ohm speakers at the end of a 5-foot cord with a 1/8" mini-plug at the other end. They're similar to headphones but without the holder and the foam pads, and the street cred you get when you hang headphones around your neck. These speakers are very soft spoken, but then they're designed to be used in your pillow, because wearing actual headphones in bed is just plain awkward--especially when you roll over.

The Sparks Will Fly...

...when you crank up this 13-1/4" tall, hand-cranked Wimshurst generator. They were the toast of the 19th Century, and remained the hottest thing around, electrostatically speaking, until Bobby Van de Graaf came along. Or you can order the set that has (8) forks and a mallet with a rubber-tipped plastic head. The forks are labeled low-C to high-C and come in a fitted, latched wooden box. Unfortunately, C.J., who has perfect pitch, tells us that his pitch is more perfect than most of the tuning forks. He also says you can file the tips, tuning them to an electronic keyboard until they're perfect – and we think there's a certain cachet to telling people you tuned the forks yourself. But they are perfect, if you're using them for things like teaching principles of sound or driving the chihuahua crazy.

Giant Whether Balloon

If the question is whether to tie a bunch of these giant weather balloons to a lawn chair, the answer is no. (They burst at about 82,000 feet anyway.) Besides, this is a true weather balloon, with plenty of fun, nonfatal uses. The cream-colored latex balloon is approx 40" dia when flaccid, you should pardon the expression, but has an 8-foot dia when inflated. The neck is 9" long x 1" dia. Scientists, meteorologists, inventors, teachers and the imaginative filmmaker are warned to launch the balloon carefully. Tiny but perfectly accurate, and the only pocket postal scale most folks will ever need. Stick your envelope in its alligator jaws, hold or hang it up and read the weight in grams (0 to 100) or ounces (up to 4) in increasing increments. Handy in the US, and very handy for travel to metric lands. Pretty much flat and approx 3" long in its vinyl pouch, it takes up virtually no room, costs next to nothing, and has no batteries. Nice little teaching tool for kiddies, too.

Nice 8-digit calculator includes an alarm clock with 16 world time zones and a countdown timer that can be set for 99 hours 59 minutes and 59 seconds. This clear acrylic shatter-resistant ruler from Helix® is 6" long, marked in 1/16" increments (with an offset zero!) and 15cm in 1mm increments.

Disposa-pouch

A pharmaceutical company gave these handy buggers away at one time, but they didn't put their name on them! (Someone probably got fired.) You get (5) Tyvek-ish pouches with a clear front so you can slide a piece of paper in there with a logo or message on it, or something more substantial, like a small water bottle. Pouch measures 8-3/8" x 4-5/8" and connects to a not-so-disposable white nylon adjustable strap/belt, 15/16" wide x 65" long with a white plastic snap buckle. Almost Free Flight Bag

Back in the Wright Brothers' day airlines used to give you these free flight bags when you flew first class--and this was during a time when first class airfare didn't cost the same as a mid-sized car. These bags look just like those except they're blessedly logo-free. Measure 14" x 11" x 5" in a tasteful light gray nylon with an adjustable 1" wide strap, a side pocket and a zippered top--and they're practically free, especially when you think about the cost of first class air travel or a new car.

Time For A Change

If your times are a-changing, you'll love this teal (which is the new orange) diaper bag. Measures 14" x 15" x 4" as carried on the 1-1/2" wide shoulder strap, but the top opens to become a 41" long changing pad. Closes securely with (2) hook-and-loop tabs and has a bottle pocket on the side. It's also great for the beach because of its big storage compartment, its fold-out-ness, and its Caribbean-conjuring teal. Also, while we wouldn't suggest carrying water in it, it's fairly water-tight.

Add a little pizzazz to your nitro pills! This 1-3/4" x 1/2" dia container for meds is anodized aluminum in mostly silver but also could be in blue, turquoise, purple, red, gold (our choice). It's gasketed so it's watertight. We recommend cleaning the inside with a cotton swab dipped in alcohol before using, since some have a bit of rust-colored residue in them. Flashy!

Measure between 7" and 14" dia and from 3/4" to 1" thick in assorted colors of steel or plastic. We'll pick three different ones and mail them to you, OK?

In golden, unfinished pine, the box measures 6-1/8" x 4-5/8" x approx 3" with its base molding. Fill the inner box. Lift it and release it and it serves up one cigarette, or anything approx 3/8" dia x 4" or less, and makes you feel like Myrna Loy. Or William Powell, depending.

Killer Magnet

Once upon a time, a copywriter put this little magnet next to his computer monitor and got really pretty, wavy, aurora-like effects. And then got a new monitor! Don't try this at home. Our shiny, silver-colored 1" x 1" x 1/2" neodymium magnet looks innocent, but is industrial strength, pulling something like 25 lbs with enough strength left over to erase all your credit cards. And wreak havoc with your monitor.

Bright Shining Neodymium

These plated and pretty neodymium magnets are all grade N33, which represents the maximum energy product in Megagauss-Oersteds (MGOe) where 1MGOe (cgs units) equals 7958kJ/m³ (SI units). This means that your monitor shows the Northern Lights then dies if you stick them on it. You pick the small rectangle, 1/2" x 3/4" x 0.30" with a 12-lb pull, or the large rectangle, 1" x 3/4" x 0.425" with a 20-lb pull.

A Real Grabber

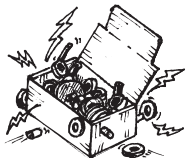

Okay, it isn't the cheapest magnet in the warehouse - but we dragged John's 165 lb filing cabinet around the dock with this 4-7/8" x 1" x 3/4" ceramic magnet, we're rating it conservatively at 100 lbs of pull, and we think it's a bargain. It has a 6" bracket with mounting holes on 5-1/2" centers, plus a 1/2" ID eyehook bolted into the center of it. It's all set to troll the bottom of the lake next time your filing cabinet falls overboard.

91949 Pick-Up Bar Magnet \$10.95/each

The Magnet Grab Bag

Our grab bag is a box. The grabbers inside are about a one-pound assortment (that's a bunch) of various and sundry magnets of different sizes, probably including ceramic discs, cylinders, rings, some hollow, some solid, with a few rare-earth magnets tossed in for grins, plus a 2" square magnetic field sheet. All in all, a very attractive assortment.

41248 Box Of Magnets \$9.95/each

Rare Find!

Rare earth magnets are usually killers for their size, and these thick nickel neodymium discs are no exception. The price, on the other hand, for (3) 7/16" dia x 1/4" 5-lb lift or (2) 9/16" dia x 3/16" 8-lb lift magnets each stored on a 2" dia steel disc, is a rare exception.

92042 Magnets, Set of 3 \$4.25/each

Small But Rare

Very nice little rare-earth magnet, 3/8" dia x 1/16" thick. Disk-shaped, plated, with good pull for its size. Perfect for a latch on a storage box or cabinet door when paired with a small steel screw or brad.

40643 Small Disk Magnet \$3.50/pkg(10)

Plain Donuts

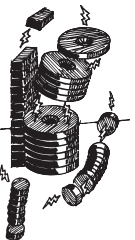

Can't beat a classic. These uncoated ceramic donut magnets have a 1-lb pull, which makes them dandy for classroom or refrigerator use. They measure 1-1/4" dia x 3/8" ID x 3/16" thick and are polarized on the faces. You get a wrapped roll of 29 donuts.

40007 Uncoated Magnets \$5.95/pkg(29)

Mess-O-Magnets

A whole bunch, yea a whole classroom's worth, of ceramic magnets for a song. You'll get 2 pounds of the attractive little things, which will be a few dozen or more of them in assorted sizes and shapes. The largest are likely to be 1-1/4" dia and the smallest 1/2" x 1/4" but there may be others, and they're all strong little bug-gers. Buy in bulk and make your own maglev model train. Our each is 2 lbs.

93651 2lbs Assorted Magnets \$7.85/each

A Lot Of Pull

Pick up this 1-3/4" x 7/8" x 3/8" ceramic pick-up magnet while we still have it. It's in a heavy metal housing and has a stationary metal hoop, about 1/2" i.d., on top. The manufacturer tells us the magnet will grab up to 30 lbs of metal, and while Pat wouldn't bet on anything over 20 lbs, it's still very strong. Especially if you're going to dangle it on the end of a cord to gather spilled nails or to fish your keys out of the lake/pond/sewer/drain!

91859 Pick-Up Magnet \$2.95/each

Magnetic Pull

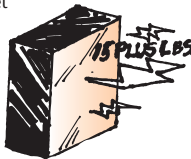

Add a door/drawer pull to any ferrous surface with this 1" dia x 1/4" thick neodymium disc in a polished sleeve with a 3/16" dia hole in a stand-off. Comes with a 1" slip-ring attached, and hangs on for 22 lbs worth. Plenty handy for hanging stuff from other stuff, too.

Hunka Hunka Ceramic Magnet

Our chunkiest ceramic magnet measures a blocky 2-5/8" x 2" x 1" and has imperfect white paint on its north face. It's as powerful as it looks: our Magnet Appreciation Manager estimated it conservatively at a 15-lb pull.

Dandiest Donut in the Domain

Donut magnet you can take to town!! 74mm dia x 14mm thick with a 30mm hole. Very strong and well pedigreed - in fact, its kin are activating pacemakers. They are of a high permeability ferrite material with a lovely light blue or white epoxy coating. Okay, we have them because there is the odd bubble, slight scratches or the word MAGNET painted in the coating which ruled them out of the medical ball, but they're fine company nonetheless. Good display bases, paper clip traps, and super for classroom demos.

2823 Black/White Donut Magnet \$3.75/each

Nickel-Coated, Quarter-Sized

Nice rare-earth neodymium disk magnet, 1" dia, about the same as a quarter but over twice as thick at 4mm. Rare-earth magnets are permanent and powerful, and this one has approx 7 lbs pull, and always will. Comes with a galvanized metal keeper approx 2" dia so you don't lose it.

93798 1 Inch Disk Magnet \$4.25/each

Bar¹⁰

Buncha bar magnets made right here in these United States. These are attractive black ceramic, 1-7/8" long x 3/8" square, with an approx 2-lb pull. Nice for craft and science fair projects, and priced so that the whole class can experiment with iron filings at the same time. (Guess who sells iron filings?)

41425 Bar Magnets \$5.95/pkg(10)

Stick-To-It Sheets

Our magnetic sheets aren't large enough to make a magnetic bed, but they're just right for making a bulletin board, hanging on to a rounded surface, or clinging to a car door with their glossy magnetic side while their self-adhesive side holds your removable sign. They're a flexible, very dark brown rubber-like material, easily cut with scissors. The 12" x 12" sheets are just over .031" thick, self-adhesive, and strong enough to hold light objects. For the larger sheets, a 2-ft piece is cut from the 2-ft wide material, and you pick a light (.011" thick) non-adhesive, a medium (.018") self-adhesive, or a slightly thicker (.021") self-adhesive sheet.

Ceramic Power

Ceramic magnets can be quite powerful and have excellent resistance to demagnetization. These rectangular ones are no exception. Add the power of surplus and we'll give you these mighty-mites for bargain prices. This 3-lb-pull guy is 1-7/8" x 7/8" x 3/8" thick, for mounting bigger pix, we figure.

I Had A Hard Life

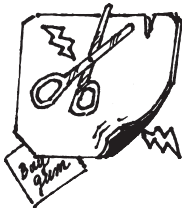

Let me rephrase that. I was in a hard drive. But I'm out now, a nice little grippy magnet pretty much permanently glued to a 2-1/2" x 3/4" x 1/8" boomerang-shaped steel plate with (4) mounting holes, (2) mounting slots, and I may or may not have a leftover plastic clip on a small post. Howsabout giving me a home? I'm quirky looking, but really quite attractive, with my 12 lb pull.

39145 PC Magnet \$5.95/pkg(3)

Bigger Sheet Magnet

This strontium ferrite sheet is stronger than your average fridge magnet, and considerably bigger. Measures 7-3/8" sq x over 1/16" thick, with (2) adjacent corners trimmed off. Rubberized finish; black on one side, writable white on the other. Can be easily cut with a scissors.

40797 Sheet Magnet \$6.95/pkg(2)

Wire You Reading This?

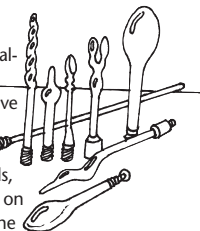

Wire we selling perfectly ordinary, standard, all-purpose 20-gauge steel wire? Lots of reasons. One, because it's steel. Two, because it's a steal. Three, because you need to wire stuff. Crafts, gardening, general binding--oh, the wiring possibilities are nearly endless. You'll get (20) feet.

42489 20-Gauge Steel Wire \$2.95/pkg(3)

Scary Molds

These white porcelain molds from the balloon industry are, frankly, the scariest medical-looking non-medical items we've seen in a long time. They come in all sorts of sizes, mostly from 5" to 10" long, and a bunch of shapes: rounds, ovals, screws, rods, storks, mouse heads, all on shafts with a threaded end to screw into the balloon machine. They're a surrealist's dream, the answer to an avant-garde sculptor's prayers, and great items to leave in your medicine cabinet for nosy guests to find. Sorry we can't fill requests for particular shapes. It's all we can do to pick out (3) different ones for your package of (5), so try not to make Kathleen feel bad by begging for mouse ears. Thank you.

New Hope For The Messy

Go ahead, get sloppy. Cleanup is a snap with our white plastic hairdressers' cape, 71" x 52" with a hole for your head; or the general-purpose white plastic dropcloth which measures 5-feet square, with no hole for your head or anything else. Both are about the thickness of a standard trash bag. Great for the classroom, art projects, touching up around the house, hairstyling and home-based DIY buzz cuts.

42470 Dropcloth \$2.95/pkg(4)

Egg McChameleon

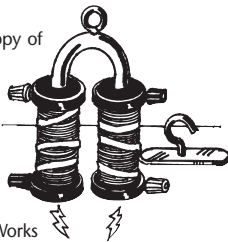

Another gem plucked from the A.S.&S. mirabilia. The shape and size of a hen egg, this opaque stone (or matte-finished glass - we're not sure which) is interesting in itself. Touched with a red pen-light in a dark room, the entire egg becomes a brilliant ruby color. Blue light/blue egg, etc. Fun and fascinating, and with a little sleight of hand, a sure way to convince the plebeians that you have some mysterious metaphysical power. **⚠WARNING: CHOKING HAZARD-Small Parts. Not for children under 3 yrs.**

91901 Magic Stone Egg \$2.95/each

Excellent Electromagnet

Physics project alert! This robust puppy of a magnet has dual 6V coils and stands 4" high x 3-1/4" wide, not counting the side terminals. Each coil draws 2.4A at 6VDC, and is conservatively rated for 40 Newtons (approx 9 lbs) at that voltage. Can be wired in either parallel or series, and comes with a mounting hook. Works great with a 6-volt lantern battery.

Leather Leftovers

What's left of a Kansas City cow after all the steaks are gone? Lots of leather! (Think buckskin, not biker jacket.) You choose from: 1) The one-piece Lace Leather Belly. Ours was a very assorted 2 lbs of strips and larger pieces of leather, 1/16" to 1/8" thick, in rust and brown. 3) The Farmer Bundle Repair Bag, 2 lbs of scraps in various colors. Ours contained a solid 12" x 8" piece and a very large bundle of brown leather thongs 47" long x approx 1/8" square. Lots of variety, and lots of heavy leather for the price.

Throw a Net over It, Marge!

We wouldn't try to capture 'gators with it, but this 4-ft x 6-ft black nylon, elastic (not-un-bungee-like) cargo net should trap anything else in the back of the pickup, van or kids' bedrooms. Stretches to about 6' x 9', with openings that are 7" square, stretching to maybe a foot, and 16 carabiner-style plastic hooks. Or just hang a couple on a wall for a nice Spiderman effect.

92582 Cargo Net \$10.95/each

Fishnets

Not fishnet stockings, but netting for actual fish, direct from the U.S. Army (you'd think Navy, wouldn't you?) in olive drab. It's a survival thing. You get a 10-foot x 5-foot net made of 3/4" squares individually knotted from twisted cotton/nylon, so the net won't unravel if torn. Might have a slightly musty aroma (but definitely not fishy) that a little sunshine time will fix. Great for maritime-theme decoration, bible-camp plays (filled until breaking, walking-on-water background prop...) or, we suppose, fishing. And perfect if you want to go to a costume party as Poseidon.

Chinex??

Rejoice, we have finally found a source of reasonably priced borosilicate glass. This is the kind of glass in the trade marked Pyrex™ and Kimex™ labware. The stuff you can put right over the flame of the Bunsen burner, or directly onto the hot plate. This stuff is imported from China, and is considered student grade, which is good enough for anything but the most exotic applications. Compare the prices below and you will see that they are around half the U.S. equivalent. Call us for larger quantity prices. All are graduated except the test tubes.

Stands 67" tall x 50" dia in a barrel shape when inflated, sort of like Henry Kissinger. In a sea-like gray/green with a tie-down rope on one side, it comes in an olive drab rubberized carrying bag. Useful as a prop for your very own Most Extreme Challenge game show, a very odd air mattress, or just to buoy your spirits.

Heavy Duty Deutsche Hazard Sign

We hate those lightweight hazard warning signs that break and blow over when a semi rolls by. This triangular road hazard sign from the German military is 17" long on each leg and stands on heavy olive drab steel legs that fold out to make a 17-1/2" x 16-3/4" footprint that isn't going anywhere. Weighs almost 5 pounds. Has been used for a few light hazards, but has years of danger ahead of it. Stores in a 18" long x 3-1/2" x 2-1/4" hard plastic case with German instructions you won't need.

Non-Ferrous Holland Hydrator

Hard plastic canteen, new (in 1996) from the Dutch military. Holds a sip or two over a liter and measures 9-1/2" tall with a screw cap and keeper. Comes in an OD pouch with (2) sets of snaps, tight and loose, which would allow you to add a freezer pack or a dried herring. The back has a belt loop and a metal wire belt hook.

Uncle Sam's Latrine! For Two!

Our very first two-passenger military-surplus field latrine! Relive those golden moments spent sitting over a slit trench in the woods with a friend. This new (no need to thank us) genuine WWII-era U.S. Army wooden latrine is painted olive drab, weighs 37 lbs, and measures 41" long x 17" x 19-1/2" high. The 18" x 14" flip-up lids are over a pair of toilet-seat-shaped openings above the open bottom. Folds flat for storage and transport. All you add is the trench. We're thinking storage bench/conversation piece for the front hall or mud room.

One Each, Cover, Water Canteen

We've got the canteen cover, even if we don't got the canteen. Made for a 2-quart bladder canteen, this is U.S. military issue, with a plush lining designed to be soaked to keep your water from evaporating like your credit rating. In desert sand-colored nylon, it includes an adjustable and removable 45" x 2" strap, a plastic snap buckle for the flap, pistol-belt slides on the back and a little hook-and-loop closed pouch on the front that we think is for salt tablets.

Put Pockets On Your Shoulder

Call them the bags of a lesser messenger. These militaristic cotton canvas shoulder bags measure just 10-1/4" wide x 9-1/2" tall x about 4-1/2" thick, but have a plethora, which in this case equals (11), of pockets, including (2) full-size water repellent nylon interior pockets, (5) pen slots, (3) pockets under the flap and (5) on the front with snaps, zippers and hook-and-loop closures, plus a back pocket and a cell-phone spot on the side. Includes a big, thick adjustable shoulder strap and all weighs less than a pound. We'll pick one that will go with all your outfits, in khaki, coyote (think dark khaki) or a green/brown digital camo.

Genuine U.S. military surplus athletic supporter, unused, never issued, brand new, still in the box, we swear on our mother's combat boots. This military supporter does date from approximately the Korean War era, but some things never change. Size medium, with a 3" wide waist-band.

This boonie in F2 forest-camo is what the French army wears when they're bivouacking, a genuine French word itself. Brim is 10-1/2" dia. We'll pick one from our assortment of small and medium sizes, but they're boonie hats so one size fits a whole bunch of tetses.

Medic! Medic!

It's anybody's guess where these military-style rubberized, nylon medics' shoulder bags came from but they'd be handy for anyone with campers, or just stuff to put in a bag. Measure 8-1/2" long x 5" tall x 4-1/2" with a medic cross on the side and a hook-and-loop closure plus a toggle fastener. Shoulder strap extends from 38" to 59". Some look to have had a strap removed--this is new old stock--and all of them would be happy as fanny packs.

Fallout Shelter Sign

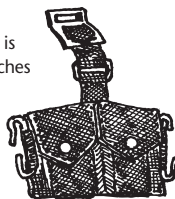

They're Back! Those of a certain age will remember being taught to crouch under their school desks in case of nuclear attack. Shortly thereafter, the gov't, in its infinite wisdom zoomed about the citiescape plastering black and yellow signs on buildings with basements to designate them as fallout shelters wherein it stored cans of water and radiation meters which were so insensitive that any reading could only mean the past tense of crispiness. We have a quantity of these signs, brand new in the sense that they have never been plastered, but antique in the sense that they are the Fifties originals. 10" x 14", 25 ga. galvanized steel. They have a black base coat on the front over sprayed with orange/yellow reflective paint in the familiar design rendered nearby by our faithful artist. This is a true collector's item fetching \$50 and up in antique stores! A tasteful addition to even the duller basement hangout.

From Flander's Fields

They're more stylish in Bruges, which is why we think these double ammo pouches from the Belgian military are snazzy. In service from the 1960s to 80s, they carried ammo for the legendary Enfield 303 P37 rifle. They measure 7-1/2" x 4" with double pouches, each with double snaps, and they have heavy-duty solid brass hanging clips and belt hooks. We'll pick one in navy blue or ridiculously dark blue, either of which is a nice change from OD, don't you think?

42578 Belgian Ammo Pouch \$5.75/each

Camo For Ammo

This nylon canvas green/brown camo pouch could hold ammo, but doesn't really care what you put in it. Measures 8-1/2" X 5-3/4" with a pair of belt loops on the back, a flap top and an adjustable 24" shoulder strap.

42672 Camo Pouch \$4.75/each

Bag O' Bones

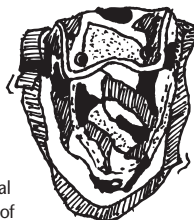

Originally a canteen pouch with two little mouse ear flaps that wrap around the top and snap closed, this insulated olive drab bag could double as a purse or a dog bone holder. Which technically would make it a pooch pouch. Measures 7-1/2" x 7" x 2-1/2". Snap straps on the back let you clip it to your pack or belt.

42567 Canteen Pouch \$3.50/each

Magazine Holder

This canvas magazine pouch is too small for Vanity Fair; it was made to hold a drum magazine for a Russian-style SKS carbine. In camo, it's 9-1/2" tall x 8" wide at the top, tapering to a point with a drain hole (keep your powder dry) and dual snap closures on the flap. Has a pair of belt loops on the reverse and an attached strap that adjusts from 27" to 54".

Longest Long-Nose Pliers?

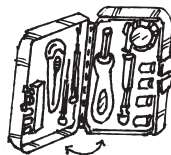

These would be standard nickel-plated locking pliers (with the vice-like grip) with serrated 1-1/2" jaws, except that they're 15" long. Think stuff you can't reach and stuff too hot to reach too close to. And if you're making a steel sculpture of a goose in flight, this is the front end. Really.

Dwarf Hammer

Even Grumpy would be happy if he had this very cool, stub-handled claw hammer to work with. It packs the punch of a 10-oz hammer, but is only 6" long overall, so it fits nicely in a sleepy cottage in the forest - or a studio apartment, emergency toolbox, or kitchen drawer. It's ideal for crafts, picture hanging and other dopey little jobs, but we wouldn't be bashful about using it for any hammer-type task. The manufacturer did doc the size of the drop-forged steel head a little (4-1/2" head to claw), but they gave it a heavy-duty frame, a contoured rubber grip, and a small magnet in the head for starting brads and nails. And we gave it a price that's nothing to sneeze at.

Perfect for carving foam blocks into shapes - or smaller blocks. Riffle files are most prized by sculptors, wood carvers, model makers and similar fashioners of precision objects. They come in a variety of flat, round and triangular shapes. We have a set of (10) in an attractive red plastic case. They are 3 x 180 mm size (about 7"), and were made in China for the King Manufacturing Co. Very nice quality at a very nice price. They can cost as much as \$4.00-\$5.00 apiece in regular outlets.

Cut Right To It

This all-purpose scissors is the favorite of everyone at A.S.&S.: Pat uses his to cut and strip wire. C.J. uses his to slit the tape on packages. Mary Ann uses hers to open bags of pretzels. It's 6-1/4" long overall, with a very sharp 2" stainless steel blade and large, comfortable handles. (Colors will vary). It would sell for \$9.95 retail if it was new, but it was used for one day to cut cloth in the assembly plant of a major car company, then discarded. Quality control is a wonderful thing.

The Penny Cutters

These are the so-called miracle shears from Pakistan. They were designed for use by paramedics and others needing quickly to cut wire, light sheet metal, or other tough stuff that might stand between them and their quarry. They are normally demonstrated cutting a penny in two. Which they will do. But not as a steady diet. Let's dispel a few myths. While these are Pakistani stainless, we're not talking any miracles in manufacturing. They are good for their purpose, and real handy to have in the old tool box. But their purpose isn't making pennies into 5-mil pieces, and you will twist or break them at about the same time you find out that you've done the same thing to U.S. laws! For sheet metal or wire or fishing leaders or tin cans or whatever, be our guests.

Really Big Retriever

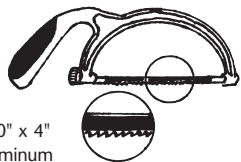

Like a 300-lb Labrador for the shop. Our ceramic lift magnet is mounted in a metal housing with swivel that will attach to a standard threaded broom handle or painter's pole. We Saw A Real Need For This

Even though this hacksaw (really a bow saw) is a handy addition to any large toolbox, we like it because you can nestle it in the bottom of even a small box. The little beauty is 10" x 4" overall, with an enameled aluminum frame, 2-7/16" throat depth, a rubber grip, and hexagonal blade mounts so you can cut at any angle. A 6" 18tpi blade comes in it, but being Boy Scouts who believe in Always Being Prepared, we'd order a set of replacement blades now. The set is a 4-pack of (2) coarse (18tpi) and (2) fine (28tpi) 6" multi-angle blades.

Carpet Tape

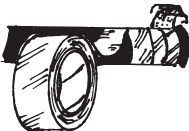

Carpet tape is actually uncoated double-sided duct tape, used to stick rugs down, or anywhere you need to stick stuff to other stuff. This roll is 1-1/2" wide x 42 feet long on a 3" core. Beige-ish color, after the backing is peeled off, but it really doesn't matter, since you won't see it (unless you make a prom dress out of it, but then you wouldn't be able to get out of the limo).

94538 1-1/2" Carpet Tape \$2.95/each

Sticky Metal

Aluminum tape. On a 27-foot roll, 1-7/8" wide x .001" thick. Used to seal ductwork around the world, but particularly handy anywhere actual duct tape isn't moisture- or weather-resistant enough.
